

Dear Kean University Resident:

August 30, 2007

The university has purchased **™CampusAlert™**, a notification system for Campus Crisis Management, and First Responder Communication. It is a secure, notification platform that integrates with Kean University's existing communication infrastructure for sharing critical information. The **™CampusAlert™** system allows for the most flexible means of communicating with our students, faculty and staff. Whether your preference is a text message, email or a phone call, the system supports any of these options or all simultaneously.

Kean University will utilize this system to notify the university community of the following announcements and/or emergencies:

- **Emergency Campus Events** – Alerts to students and staff of security-related incidents, utility shutdowns, weather related closures and events, and advisories as events unfold.
- **Information Technology Notification**- Provide maximum warning for service disruption and recovery.
- **First Responder Mobilization** – Alerts to campus security, police, fire and emergency services automatically.

In order to take advantage of the benefits this service provides, students, faculty and staff must register by following the instructions below. **All students residing in the residence halls or alternative housing are required to register for **™CampusAlert™** by Monday, September 24, 2007.**

Instructions:

1. Go to www.mir3.com/kean
2. Type in your Kean University e-mail address or other e-mail address
3. Type in a password that you will easily recall.
4. Input your name.
5. Providing your cell phone number and landline telephone number will generate the message to these numbers as well.

Kean University stresses that maintaining current contact information will be critical to the effectiveness of the system and urges students faculty and staff to update their contact information on a regular basis. All information is secure and will remain private.

The University is committed to providing students with services that enhance a safe and secure residential community. These services include 24 hour security, surveillance cameras in the lobbies, external surveillance cameras on the perimeter of the residence halls and most recently a guest monitoring software program. The **™CampusAlert™** program will enhance these initiatives and assist us in communicating directly with the campus community.

Should you have any questions, you may contact me through the Office of Residence Life at (908) 737-6800. Thank you for your attention and cooperation.

Sincerely,

Maximina Rivera
Director, Office of Residence Life
