How to Read a Program Evaluation

The Program Evaluation, also known as a Degree Audit, is an electronic version of your program "Curriculum-Sheet". It displays each requirement of your major and tracks the courses you need to fulfill those requirements. The Program Evaluation is an excellent tool to track your progress toward graduation, make sure you review it frequently. At Kean, every student begins with an intended program, to declare your major you must meet the major requirements and obtain approval from your academic department.

Note: If some of the information in your Program Evaluation is not consistent with your transcript, please contact the registrar's office to corroborate the information.

E-Mail Address:

> Major, catalog year used to determine degree requirements (usually the year you started at Kean), and educational goal. If any of these are not correct, consult with your academic advisor.

Welcome to Degree Audit, Kean University's electronic evaluation system. Degree Audit is a tool that must be used in conjunction with advisor conferences to ensure program completion. It is strongly recommended that you meet with your advisor on a regular basis so that your progress towards graduation requirements is reviewed in a timely manner.

Contact your major program faculty advisor or department chairperson regarding your curriculum questions.

Please note that Degree Audit is still in the initial implementation phase and can only be used in conjunction with personal advisement.

On this evaluation a repeated course currently in progress will result in the first course being removed from calculation of the GPA and credits completed. Once a grade is assigned to the second repeated course then both courses are used to calculate the GPA. Credits completed will be counted once.
Consult your college catalog for additional information.

** GRADUATE STUDENTS ARE NOT ELIGIBLE FOR GRADE RECALCULATION **

> This means that you should always consult with your advisor. All course work completed will appear on the program evaluation even if they may NOT count towards degree requirements (e.g. repeated courses, developmental courses). Contact your Advisor if you have any questions regarding your program.

Major/GE Capstone and Additional Requirements

These sections of your program are determined by the catalog year of your program. Each academic program has different course requirements and structure. It is recommended you meet with your faculty advisor to clarify any discrepancies in your program.

A three-credit Capstone experience (as determined by each major academic program) is required of all students. In the Capstone, students will complete projects using the skills developed through the GE Program to demonstrate mastery of their major content. Successful completion of the project in the Capstone course will demonstrate that students are active learners who have accumulated knowledge of the liberal arts and sciences, have reached an advanced level of skill proficiencies, can collaborate effectively, and can apply knowledge to the achievement of tasks and the solution of problems.

A major program may include required coursework in areas outside (but related to) the major. Not all programs include additional requirements; for those that do, the courses are generally introductory-level courses in areas supporting the major. Supporting courses require a minimum grade of D; however some majors may have higher grade requirements, as noted on the guide-sheet and program evaluation.

3: Additional Required Courses 6 S. H. (In progress)

PLEASE NOTE: The "Additional Requirements" specified below are not required if you have a second major, a minor or a collateral; how ever the six credits must still be completed in order to achieve the total number of credits needed for graduation.

TAKE TWO COURSES FROM SUBJECTS ENG,COMM,HIST,PS,ECO,SOC, ANTH,PHIL,REL

Free Electives and Other Courses

Free electives: are classes that are not required by your major but are needed to fulfill your degree credit requirement. Free electives are typically classes you are interested in taking but are not within your major department. In other words any course offer at Kean for which you meet the pre-requisites for. Make sure you read this section of the program carefully, since there is limitations in the number of credits and the type of courses you can take.

Other Courses: are courses that DO NOT count toward graduation. These credits are counted toward the total number of credits completed even if they do not count towards your graduation requirements. Make sure you review this section of your program evaluation every time you register to ensure none of your classes are placed in this section.

5: Free Electives: 42-44 S. H. (Complete)

THIS SECTION PROVIDES A STATEMENT (ONLY) OF THE NUMBER OF FREE ELECTIVES REQUIRED BY YOUR MAJOR. SEE SECTION DIRECTLY BELOW FOR YOUR PROGRESS IN COMPLETING YOUR FREE ELECTIVES. Psychology requires between 42-44 credits of Free Electives (see below). The amount de pends on how many General Education credits you complete: 43 credits of GE requires 44 credits of free electives; 44 credits of GE r equires 43 credits of free electives; and 45 credits of GE requires 42 credits of free electives. All free electives require a grad e of D or better. NO MORE THAN 3 PSY COURSES CAN BE TAKEN AS FREE ELECTIVES

6: Free Electives (In progress)

(50% MUST BE COMPLETED AT THE 3000-4000 LEVEL) There is a credit limit on the number of major courses that is allowed in free elect ives. Consult your department advisor and the undergraduate catalog for further information. Some areas have variable credit requir ements; e.g., "Health Education/Physical Education 2-3 S.H." The variable credits offset the number of credits needed to complete th e Free Elective requirements. The Free Electives area will display the maximum number of credits needed until all credits in the var iable credit area are completed.
