KEAN UNIVERSITY STUDENT HEALTH SERVICES IMMUNIZATION REQUIREMENTS

(Please print and read carefully!)

DUE DATE:

Fall Semester Start: AUGUST 1st

Spring Semester Start: JANUARY 6th

Failure to complete health requirements will result in a registration hold.

HOW TO SUBMIT IMMUNIZATION REQUIREMENTS

1. Take this packet to your health care provider to be completed, signed and stamped. This form does not have to be used; a copy of an official immunization record from your doctor, employer, military, hospital, or previous school can be submitted.

2. Once you have obtained your immunization documents, register for a Student Health Portal account at https://kean.studenthealthportal.com/Registration/Register, and submit your immunization forms via the My Forms and Document Upload menus. Detailed instructions on how to submit your immunization forms can be found at: https://www.kean.edu/media/detailed-instructions-how-submit-immunization-records.

3. You will receive a secure message to your Student Health Portal account regarding the status of your immunization record once it has been processed.

4. Visit our website, https://www.kean.edu/offices/student-health-services/immunizations, for more information about exemptions and online waivers.

If you are under the age of 18 at the start of your first semester, you are required to submit the Consent For Treatment Form (pg. 5). Go to the Document Upload menu in the Student Health Portal to upload your paper forms.

Do not fax, email, mail, or bring records into our office.

They will not be reviewed and will further delay processing your immunization record.
MENINGITIS INFORMATION

New Jersey State law requires that colleges provide incoming students with information about meningitis infection and available vaccinations. In providing this information we want our Kean students and parents to have the most up to date information regarding this devastating disease and methods of prevention.

The Disease
Meningococcal meningitis is a bacterial infection that can have sudden onset and strike otherwise healthy people, it can cause permanent disability and death. Although it is rare, teens and young adults age 16 to 23 are at increased risk. College students who live and work in close proximity to each other are at particularly high risk. The infection can attack the lining of the brain and spinal cord and the bloodstream and cause flu like symptoms, which can make diagnosis difficult. Common symptoms are: confusion, fatigue, rash of dark purple spots, sensitivity to light, stiff neck, nausea, vomiting, headache and high fever. The rates of meningococcal disease have been declining in recent years in part to consistent vaccination. Even with the decline in cases, meningococcal meningitis continues to have a fatality rate of 10-15% so continued prevention is necessary to keep this disease at bay.

Prevention
The best way to protect yourself is to get vaccinated. Currently two different types of meningitis vaccines are available. The first vaccine protects against four strains of meningococcal bacteria known as A,C,Y, W-135 (Menactra and Menveo and Menomune). The Advisory Committee on Immunization Practices (ACIP) recommends two doses for all adolescents. The first dose is typically given at 11 or 12 years old. Because the vaccine wanes in effectiveness a booster is recommended at age 16 so the adolescent has continued protection when they are at highest risk. This vaccine is mandatory for all students under the age of 19 and for those living in University housing (see page 4 for more information about requirements). A second vaccine protects against Meningitis type B. This vaccine is not mandatory for most students, however there have been outbreaks and individual cases of meningitis type B on college campuses in recent years. Teens and young adults may be vaccinated with the serogroup B vaccine (Bexsero or Trumenba). In June of 2015 the ACIP recommended that given the seriousness of meningococcal disease and the availability of a licensed vaccine, individuals are encouraged to consult with their healthcare provider regarding administration of this vaccine.

If you have more questions regarding vaccine recommendations you can visit our web site kean.edu/immunizations or call us at (908) 737-4880. You can also visit the Center for Disease Control website at cdc.gov/meningococcal/vaccine-info.html or American College Health Association website at acha.org.
## REQUIRED IMMUNIZATIONS

### COVID-19 Vaccination: Required for all students (Accepted: 2 dose Pfizer, 2 dose Moderna, 1 dose Johnson & Johnson).

**COVID-19 Vaccine (one or two dose series):**  
- Dose #1: ___ / ___ / ___  
- Dose #2: ___ / ___ / ___  
  Select one:  
  - ☐ Pfizer®  
  - ☐ Moderna®  
  - ☐ Johnson & Johnson®

### Measles, Mumps, Rubella: Required for all students (Students born before 12/31/56 are only exempt from the MMR requirement).

**MMR (two-dose series):**  
- Dose #1 ___ / ___ / ___  
  (Must be on or after 1st birthday & after 12/31/67)  
- Dose #2 ___ / ___ / ___  
  (Must be at least 28 days after 1st dose)  

**Measles:**  
- Dose #1: ___ / ___ / ___  
- Dose #2: ___ / ___ / ___  
- Mumps: ___ / ___ / ___  
- Rubella: ___ / ___ / ___

**MMR Antibodies, IgG** may be submitted to prove immunity.  
- A copy of the laboratory report is required.  
- Please note, if non-immune, the state requires you to receive the appropriate vaccinations.

### Hepatitis B: Required for all new students registered for 12 or more credits.

**Hepatitis B (three-dose series):**  
- Dose #1: ___ / ___ / ___  
- Dose #2: ___ / ___ / ___  
  (Dose 2 must be at least 4 weeks after dose 1.)  
- Dose #3: ___ / ___ / ___  
  (Dose 3 must be at least 16 weeks after dose 1 and 8 weeks after dose 2.)

**Hepatitis B (two-dose series):** (valid if given ages 11-15)  
- Dose #1: ___ / ___ / ___  
- Dose #2: ___ / ___ / ___

**Hepatitis B Surface Antibodies** may be submitted to prove immunity.  
- A copy of the laboratory report is required.  
- Please note, if non-immune, the state requires you to receive the appropriate vaccinations.

### Tuberculosis Testing: Required for international students  
(Applies if you are residing in the U.S. with a student visa).

**Tuberculosis test (PPD, Mantoux - within 6 months):**  
- Administer Date: ___ / ___ / ___  
- Result Date: ___ / ___ / ___  
- Result: ___ Positive* ___ Negative  
  _____ mm induration  

*Positive results require documentation of a recent chest x-ray.

### The following vaccinations are strongly recommended:

- **Hepatitis A:** Dose #1: ___ / ___ / ___  
  Dose #2: ___ / ___ / ___

- **Varicella:** Dose #1: ___ / ___ / ___  
  Dose #2: ___ / ___ / ___

- **Tetanus-Diphtheria-Pertussis Booster (Tdap):**  
  (within the last ten years) Dose: ___ / ___ / ___

- **Human Papillomavirus (HPV, Gardasil):**  
  Dose #1: ___ / ___ / ___  
  Dose #2: ___ / ___ / ___  
  Dose #3: ___ / ___ / ___

- **Influenza (For the current season):** Dose: ___ / ___ / ___
Meningococcal Vaccine Requirements

New Jersey law requires that new students enrolling in a public or private institution of higher education in New Jersey to have received meningococcal vaccines as recommended by the Advisory Committee on Immunization Practices (ACIP). There are two types of meningococcal vaccines that might be required depending on your age and your risks: the meningococcal conjugate vaccine (MenACYW) that protects against serogroups A, C, Y, and W disease; and the meningococcal serogroup B vaccine (MenB) that protects against serogroup B disease.

**MenACYW (Menactra® and Menveo®)** vaccine is routinely recommended at ages 11-12 years with a booster at 16 years. Adolescents who receive their first dose of MenACYW vaccine on or after their 16th birthday do not need a booster dose. Additional doses may be recommended based on risk. People 19 years of age and older are not routinely recommended to receive the MenACYW vaccine unless they are students living in residential housing or if another risk factor applies.

**MenB (Bexsero® and Trumenba®)** vaccine is routinely recommended for people ages 10 years or older with high risk health conditions. People 16-23 years old (preferably at ages 16-18) may also choose to get a MenB vaccine.

**INSTRUCTIONS:** To assist in determining which meningococcal vaccines may be required, review each of the indications in the table below, both by age and by increased risk, with your healthcare provider. Place a checkmark in the box next to each indication that applies to you.

### By age indication

<table>
<thead>
<tr>
<th>Age</th>
<th>MenACYW Requirement</th>
<th>MenB Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ ≤18 years of age, not at increased risk</td>
<td>✔ Vaccine required</td>
<td>✘ Vaccine not required</td>
</tr>
<tr>
<td>☐ ≥19 years of age, not at increased risk</td>
<td>✘ Vaccine not required</td>
<td>✘ Vaccine not required</td>
</tr>
</tbody>
</table>

### By increased risk indication

<table>
<thead>
<tr>
<th>Indication</th>
<th>MenACYW Requirement</th>
<th>MenB Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Students living in residence hall</td>
<td>✔ Vaccine required</td>
<td>✘ Vaccine not required</td>
</tr>
<tr>
<td>☐ HIV infection</td>
<td>✔ Vaccine required</td>
<td>✘ Vaccine not required</td>
</tr>
<tr>
<td>☐ If you are a resident of a country where meningococcal disease is prevalent</td>
<td>✔ Vaccine required</td>
<td>✘ Vaccine not required</td>
</tr>
<tr>
<td>☐ Complement component deficiency or use of medication known as complement inhibitor (e.g., eculizumab)</td>
<td>✔ Vaccine required</td>
<td>✔ Vaccine required</td>
</tr>
<tr>
<td>☐ No spleen or problem with spleen - including sickle cell disease</td>
<td>✔ Vaccine required</td>
<td>✔ Vaccine required</td>
</tr>
<tr>
<td>☐ Work in a laboratory with meningococcal bacteria (Neisseria meningitidis)</td>
<td>✔ Vaccine required</td>
<td>✔ Vaccine required</td>
</tr>
</tbody>
</table>

**Meningococcal A,C,Y,W-135:** (one dose since age 16): Dose #1: _____ / _____ / _____ Dose #2: _____ / _____ / _____

**Meningococcal B:** Dose #1: _____ / _____ / _____ Dose #2: _____ / _____ / _____ Dose #3: _____ / _____ / _____

Select one: ☐ Bexsero® ☐ Trumenba®

Record of immunization is NOT VALID unless signed and stamped by a healthcare professional.

Health Care Provider’s Stamp: ____________________________  Print Name: ____________________________

Address: ____________________________________________  Tel.: ____________________________

Health Care Provider’s Signature: ____________________________

Revised 5/2021
Instructions: This form is required for students who will be under 18 years of age when they arrive on campus. This form must be completed by the student’s parent or court-appointed legal guardian. Once the form is completed, the student must upload it into their patient portal account at kean.studenthealthportal.com

CONSENT FOR TREATMENT (FOR STUDENTS UNDER 18 YEARS OF AGE)

I hereby voluntarily give consent to Kean University Student Health Services medical staff to provide medical care including routine diagnostic procedures, medical treatment, and preventative health measures to:

___________________________________________________
Student Name (First, MI, Last)
Kean ID#

In making medical decisions on my behalf for the benefit of the above named patient, I direct that the Healthcare Provider attempts to contact me. However, if medical care becomes essential, as in the case of a medical emergency, I give permission to the Healthcare Provider to make such decisions regarding treatment as deemed appropriate by the physician or nurse practitioner.

I acknowledge that I have read and understood the above consent.

I certify that the above information is correct and has been read and understood by me.
