#### **Overview:**

The Kronos system provides an easy way to track employee time and attendance and administer payroll and HR services. This system also eliminates the need for paper time sheets.

Hourly employees can use Kronos to record their work hours by punching in and out, using time clocks or computers. For employees not required to punch in and out, their schedules are fixed and entered in the Kronos system. Managers can then review, change, or approve employee time cards. They can also set schedules and generate reports.

Managers must approve employee timecards on a bi-weekly basis. Time card approvals are due every other Monday, following the end of the pay period. Kean University's pay period schedule can be accessed through the Kean web-site: <a href="http://www.kean.edu/KU/Payroll">http://www.kean.edu/KU/Payroll</a>

#### Accessing the KRONOS System:

Hourly employees, manager and timekeepers are required to have a username and password to access the Kronos system. Please use the following link: <u>http://knet-kronos2/wfc/logon</u>

#### **Sign-on Screen:**

After you are connected to Kronos system, you will see the sign-on screen. Please type your assigned username and password.

#### EDITING EMPLOYEE TIMECARD

1. From the Home page, click your department name under "My Genies".

My Genies®

→ TEST

The time period will be set to 'Current Pay Period" by default. If you need to work on a different pay period, use the drop down menu and select the desired time period. (Previous Pay Period, Next Pay Period, Specific Date, Range of Dates etc.)

2. Select the employee or employees which you wish to edit and click Timecard.

(double clicking on the name of the employee will also bring you to the timecard.)

#### 3. If an employee is taking a FULL day off:

- a. Select the date in which time is being taken.
- b. Click the "X" left of the date. Then click "Yes" to the message to erase

the d	lata 1	in that row.		
2	9 G	vvea 5/07	•

- c. Under the <u>Pay Code</u> column, select the type of the time that was used. (Sick, C-vacation, personal, Comp etc.). When using vacation time, always choose "C-vacation" – This ensures that vacation time that was carried over from the last year will be used first. If an employee does not have any prior year vacation, the system will automatically deduct from the current years' time.
- d. Under the <u>Amount</u> column, enter the number of hours equal to a full day. (usually 7)

			Date	Pay Code	Amount
	X	₽	Wed 5/07	-	
	X	₹.	Thu 5/08	C-Vacation 🔹 👻	7.0
~ `			Thu 5/08	Prior Year Vacation	7.0
$8 \rightarrow$		(F)	5-15/00		

Ex: vacation day taken  $5/08 \rightarrow \square$ 

- e. Click Save.
- 4. To verify that the vacation time was entered accurately, check TOTALS & SCHEDULE at the bottom of the screen. The total hours should always equal 70) (for 7 hrs./day employees).

Ex: Regular hours worked 63+ prior year vacation 7 = 70 Total hours.

The "Cumulative" (last column in the time card) should add-up to total pay period hours as well.

- 5. If an employee is taking a PARTIAL day off: (Example came in 2 hours late).
  - a. Select the date in which time is being taken.
  - b. Change the "In" time. (if employee came in 2 hours late, change 8AM to 10AM)
  - c. Click the + and arrow button, left of the date. (This will insert a blank row for the same date)

- d. On the new blank row, in the Pay Code column, select which type of time was used. (in this example 'Sick".)
- e. In the Amount column, enter the number of hours being used (2 hrs. in this example)

		Date	Pay Code	Amount	In	Tra	Out
	X	Mon 5/12	-			-	
	X	Tue 5/13	Sick 👻	2.0		-
