

Transformation Starts Here!

Join the New Jersey Cybersecurity Regional Cluster (NJCRC) to protect and grow your business!

Funded in part by the Small Business Administration (SBA), this initiative helps businesses take advantage of assessments, training, mentorship, and networking opportunities.

Free Cybersecurity Assessments and Planning

With cybersecurity threats growing daily, it's a necessity for every business to understand how to protect its confidential data. The Kean University Center for Cybersecurity and the Small Business Development Center at Rutgers University/Newark (SBDC) can help your small business, regardless of industry, identify potential risks and learn to mitigate them.

To register for this free assessment, go to one of the QR codes below:

If your business has revenue of \$500k or over and two or more employees, scan this QR code.

If your business has less than \$500k in revenue, scan this QR code.

Free Information Technology and Cybersecurity Business Accelerator

Technological advancements are happening so quickly that keeping on top of it all is challenging. This program will provide coaching, mentoring, training, and technical assistance to help take your business to the next level. To qualify for this program, your business must have revenues of \$500k or greater.

Do you own an IT or CyberSecurity business?

Is your company Women-, Minority-, or Veteran-Owned?

Then this free program is for you! Register with the QR code.

How will you benefit?

-  Explore cutting-edge innovations
-  Introductions to capital resources
-  Network with like-minded businesses
-  Tailored coaching and mentoring
-  Enhanced opportunities for scalability
-  Assessments to reduce cybersecurity threats
