Developmental Articulation and Phonology Profile

Composure Ages of Normal Phonological Process Extinction

Instructions: Draw a heavy horizontal line at the child's age level for comparison purposes.

KEY
Indicates age range during which processes are normally extinguished.

Syllable Structure Processes
- initial consonant deletion
- final consonant deletion
- cluster reduction
- weak syllable deletion

Substitution Processes
- gliding
- velar fronting
- stopping
- glottal replacement
- vocalization
- palatal fronting
- prevocalic voicing
- postvocalic devoicing
- velar assimilation
- alveolar assimilation
- labial assimilation

Harmony Processes
