

How to connect to Kean University's Wireless Network using a Windows 7 Operating System

Before attempting to connect to the University's Wireless Network, make sure your wireless card is enabled.

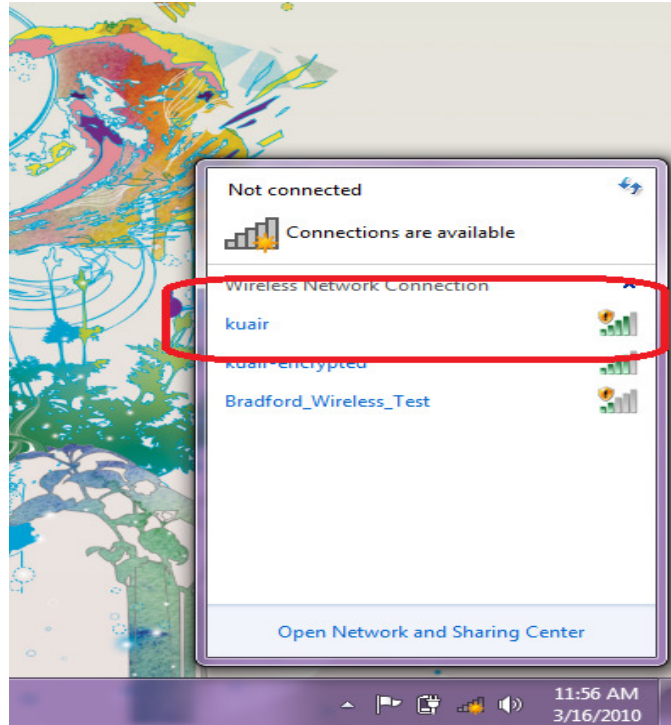

- 1) Look for the wireless icon at the bottom right hand side of the home screen.

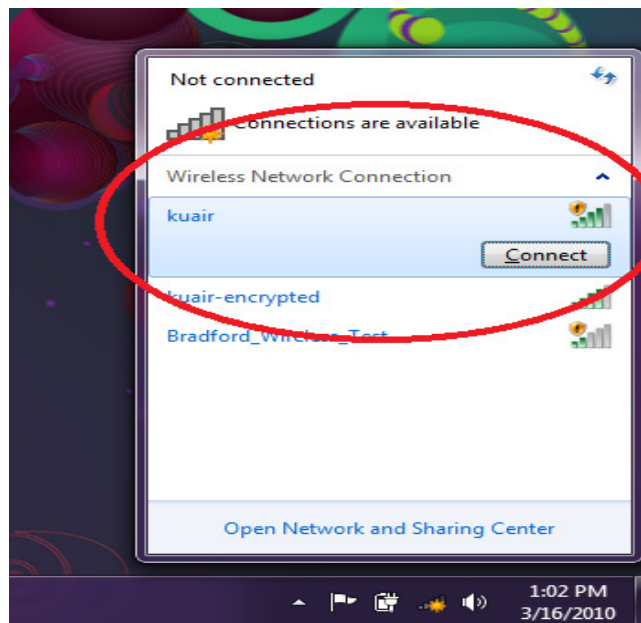

- 2) Click on the wireless icon to bring up the list of available network connections.

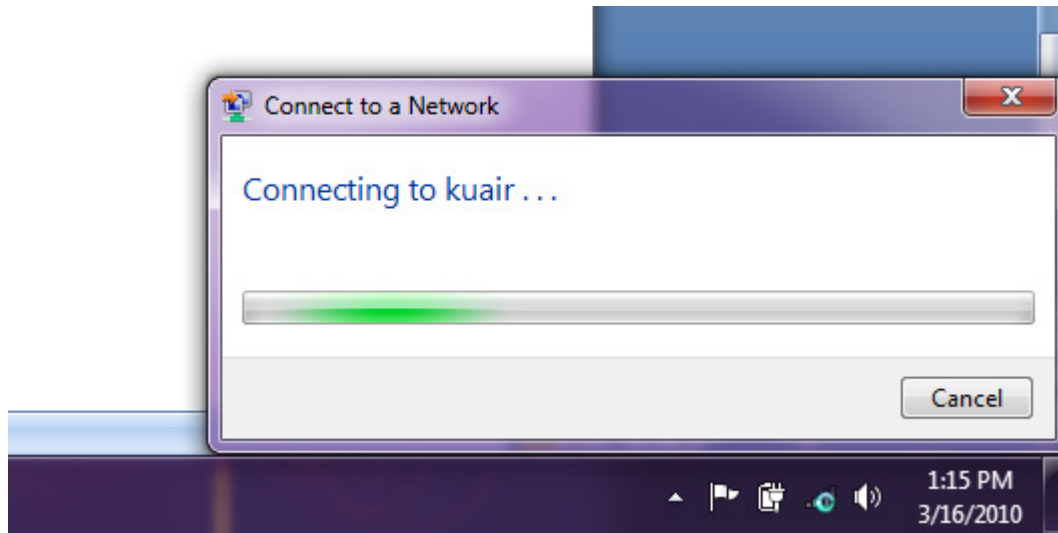

3) Select the University's wireless network. Click on "kuair"

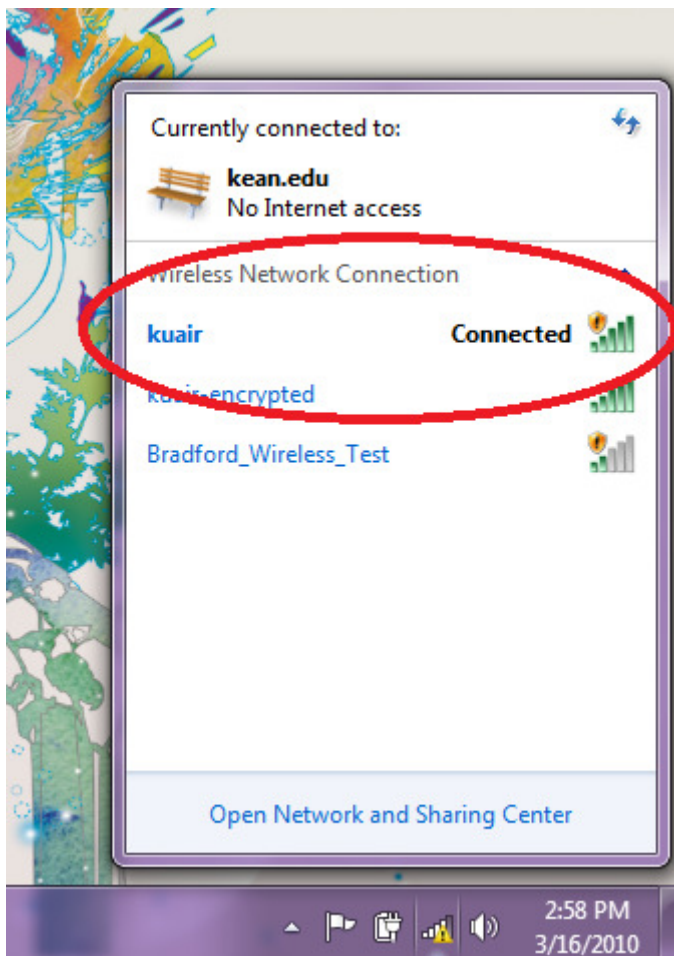

4) Once the kuair network is select, click the connect button to establish a connection.

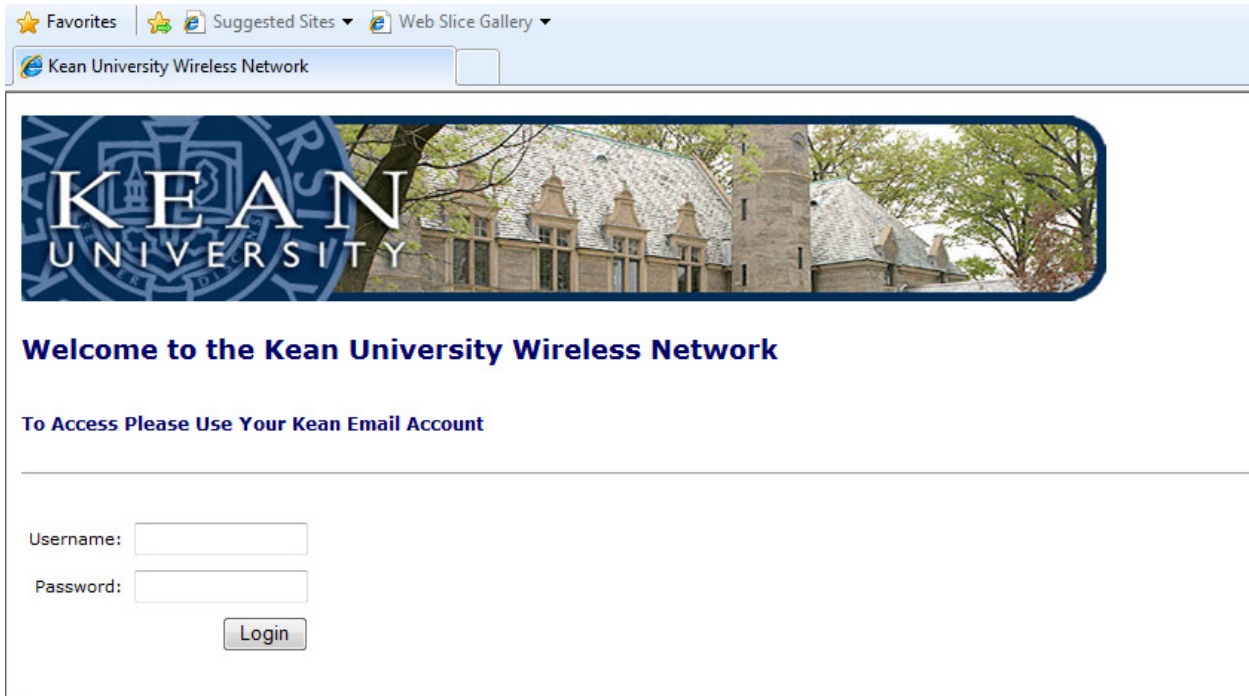

5) The system will now attempt to connect to the University's wireless network.

6) Your available network box should now show that you are connected to the kuair network.

7) Open an internet browser. Enter you kean email username and password
